

# Snowfall management

For everyone's convenience, and in order to keep some areas usable, we ask all of our customers to take part in the management of snowfalls :

- on the stairs going down to the main entrance, and on the flat ground surface directly above
- on the **jacuzzi** : use the shovel to gently push the snow off the cover, away from the chalet (it will fall into the slope downstream), shovel a path to access the jacuzzi on the left hand side, and take the snow away from the small platform on the left hand side to access the locks.

SUNDAY : apartment **Cloudit**

MONDAY : apartment **Souveraine**

TUESDAY : apartment **La Forêt**

WEDNESDAY : apartment **Petit Prince**

THURSDAY : apartment **les Vallons**

FRIDAY : apartment **Cloudit**

In order to avoid children falling, it is recommended to shovel in the morning as much as possible, mostly when it comes to the stairs exiting the main entrance.

**THANK YOU**
